IBM IBM Tivoli Usage & Accounting Manager V7.1 Implementation

Practice Exam: 000-012

Exam Number/Code: 000-012

Exam Name: IBM Tivoli Usage & Accounting Manager V7.1 Implementation

Questions and Answers: 153 Q&As

Exam Description

Order : [000-012 Exam](#)

1. Just4Cert offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-012 Exam.

Just4Cert **Practice Exams** for 000-012 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications I** exam and get your **IBM certifications I Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications I** "000-012" (IBM Tivoli Usage & Accounting Manager V7.1 Implementation on your first attempt, send us the official result. We will give you : FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Just4Cert IBM certifications I 000-012 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications I 000-012 exam provides everything which you need to pass your exam. The IBM certifications I Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-012 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first IBM Tivoli Usage & Accounting Manager V7.1 Implementation(IBM certifications I) exam try but also save your valuable time.

Comprehensive questions with complete details about 000-012 exam.

000-012 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications I exam. 000-012 exam questions updated on regular basis.

Like actual IBM certifications I Certification exams, 000-012 exam preparation is in multiple-choice questions (MCQs) Tested by many real IBM certifications I exams before publishing.

Try free IBM certifications I exam demo before you decide to buy it in <http://www.Just4Cert.com>

High quality and Valued for the 000-012 Exam: 100% Guarantee to Pass Your 000-012 exam and get your IBM certifications I Certification. Come to <http://www.Just4Cert.com> The easiest and quickest way to get your IBM certifications I Certification.

Just4Cert professional provides IBM certifications I 000-012 the newest Q&A, completely covers 000-012 test original topic. With our completed IBM certifications I resources, you will minimize your IBM certifications I cost and be ready

C.127

D.unlimited

Answer: C

A.Troubleshooting Transactions Logging

B.Troubleshooting Configuration Logging

C.System Maintenance Transactions Logging

D.System Maintenance Configuration Logging

Answer: D

8. Click the Exhibit button.

Consider the following account code:

AAABBBBCCCCDD

Which length values would be filled in the Account Code Structure Maintenance shown in the exhibit if there were four levels?

A.3, 4, 5, 2

B.2, 5, 4, 3

C.4, 3, 2, 5

D.3, 7, 11, 13

Answer: A

9. What is the difference between the length and full length related to the account code structure?

A.The length is the number of bytes for the specific entity defined by the level, while the full length is manually calculated and represents the total number of bytes for all levels.

B.The length is the number of bytes for the specific entity defined by the level, while the full length is automatically calculated and represents the total number of bytes for all levels.

C.The length is automatically calculated and represents the total number of bytes for all levels, while the full length is the number of bytes for the specific entity defined by the level.

D.The length is automatically calculated and represents the total number of bytes for all levels, while the full length is the number of bytes automatically calculated for the specific entity defined by the level.

Answer: B

10. When identifying data sources and corresponding collectors, which collector does a CSV data source require?

A.WinDisk

B.WinProcess

C.StandardCollector

D.UniversalCollector

Answer: D

11. Click the Exhibit button.

In the Log Files panel displayed in this exhibit, the UnixDB2 process ended with a process failure.

In which step did the failure occur?

A.UnixOS

B.Process

C.Integrator

D.UnixNightly

Answer: B

12. Which two processing files should be reviewed for database size estimation? (Choose two.)

A.job log file

B.AcctCSR.txt

C.yyyymmdd.txt

D.Exceptions.txt

E.CurrentCSR.txt

Answer: AB

13. What are the minimum requirements for processor speed and memory for the IBM Tivoli Usage and Accounting Manager V7.1 Administration Server?

A.3 GHz, 2 GB

B.3 GHz, 3 GB

C.3 GHz, 4 GB

D.4 GHz, 3 GB

Answer: A

14. If a user requires account codes with different levels or different offset positions, what should they consider doing?

A.use the default account code structure

B.create alternate account code structures

C.delete the default account code structure

D.restrict using the default account code structure

Answer: B

15. What is the purpose of CPU normalization within IBM Tivoli Usage and Accounting Manager V7.1?

A.to not charge for CPU utilization

B.to charge less for CPU utilization

C.to charge more for CPU utilization
