IBM IBM System z Solution Sales V3

Practice Exam: 000-427

Exam Number/Code: 000-427

Exam Name: IBM System z Solution Sales V3

Questions and Answers: 47 Q&As

Exam Description

Order : [000-427 Exam](#)

1. Just4Cert offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-427 Exam.

Just4Cert **Practice Exams** for 000-427 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **IBM certifications III** exam and get your **IBM certifications III Certification**.

We guarantee your success in the first attempt. If you do not pass the **IBM certifications III** "000-427" (IBM System : Solution Sales V3 on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Just4Cert IBM certifications III 000-427 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of IBM certifications III 000-427 exam provides everything which you need to pass your exam. The IBM certifications III Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "000-427 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first IBM System z Solution Sales V3(IBM certifications III) exam try, but also save your valuable time.

Comprehensive questions with complete details about 000-427 exam.

000-427 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real IBM certifications III exam. 000-427 exam questions updated on regular basis.

Like actual IBM certifications III Certification exams, 000-427 exam preparation is in multiple-choice questions (MCQs). Tested by many real IBM certifications III exams before publishing.

Try free IBM certifications III exam demo before you decide to buy it in <http://www.Just4Cert.com>

High quality and Valued for the 000-427 Exam: 100% Guarantee to Pass Your 000-427 exam and get your IBM certifications III Certification. Come to <http://www.Just4Cert.com> The easiest and quickest way to get your IBM certifications III Certification.

Just4Cert professional provides IBM certifications III 000-427 the newest Q&A, completely covers 000-427 test origina topic. With our completed IBM certifications III resources, you will minimize your IBM certifications III cost and be

Customer enrolls in ResourceLink. When needed, the customer orders a CIU OOCOD.

C. The CIU contract and OOCOD appendix are signed and, if needed, the OOCOD Capability Feature is ordered. Two MESs are ordered. The first reflects the original CPs needed and the second reflects the total CPs needed.

D. The CIU contract and OOCOD appendix are signed and, if needed, the OOCOD Capability Feature is ordered. A single OOCOD order is placed for the original CPs needed. A second OOCOD order is placed when the need arises.

Answer: B

4. The OSA-ICC is most similar in function to which of the following devices?

A. 2074 Console Support Controller

B. 2029 (DWDM) Dense Wavelength Division Multiplexer

C. ESCON Director

D. 37XX Communications Controller

Answer: A

5. What is the advantage of dynamic oscillator switchover?

A. Allows the backup oscillator to detect the failure, switch over and provide redundant power capabilities.

B. Allows the backup oscillator to detect the failure, switch over requiring only an IPL instead of a full Power on Reset

C. Allows the backup oscillator to detect the failure, switch over, and provide the clock signal to the server transparently.

D. Supports enhanced availability for z890, z900, and z9W

Answer: C

6. A System z10 customer is evaluating z/OS capacity requirements.

Which of the following IBM tools can perform capacity planning from customer SMF data?

A. zPCR

B. LSPR

C. CP3000

D. AD Tools

Answer: C

7. A prospect with a large number of Windows servers distributed across the globe is considering migrating to single System z. The customer is very concerned with the rapid growth of his Windows support staff, and the space used by the servers in the various locations.

Which of the following is likely to provide long term justification in this scenario?

A. T Reduced Footprint size at the central location

B. Technical skill requirements

C. Power requirements

D. High Availability

Answer: B

8. When trying to evaluate a customer's z/OS capacity requirements.

Which of the following IBM tools can perform capacity planning from customer SMF data?

A. AD Tools

B. CP3000

C. LSPR

D. zPCR

Answer: B

9. A System z10 retail customer with home written Cobol applications is considering replacement of their older z/OS server with new technology. They do not believe a replacement would be less costly than keeping their current server.

Which of the following factors in z10 are relevant in convincing them otherwise?

A. Application costs, z/OS maintenance, and floor space

B. MSU software savings, hardware maintenance, software efficiency

- C. z/OS administration, hardware maintenance, and database costs
- D. Floor space, power and cooling, z/OS maintenance, and hardware maintenance

Answer: B

10. A new Controller at an older but supported level mainframe customer contacts the System z Sales Specialist. The controller is very disappointed with the overall performance of the existing equipment. They have discovered users who cannot use the systems due to resource constraints.

Which of the following actions will address this situation?

- A. Run CP3000
- B. Upgrade to current level OS
- C. Propose a services contract to tune the existing system and establish the system requirements
- D. Run a sample of the System p AIX workload in an LPAR to establish the total system requirements

Answer: D

11. A current 2084 A08 304 customer intends on getting off of the mainframe in the next year by moving applications to a distributed environment. Today they are running at 98% capacity and think they will grow at least 10% before year end. What is the best solution for this customer.

- A. Move to the new System z10 BC which is smaller than the 2084 and allow for software savings and provide a way to downgrade using capacity settings.
- B. Add an engine to the existing machine so they can turn it on right away.
- C. Upgrade to a z10 EC and use capacity settings to downgrade as needed and get some IBM software savings.
- D. This is really not a customer the Sales Rep would want to deal with since there is no long term potential, but should suggest outsourcing as a viable option.

Answer: C

12. A Windows customer is considering migrating to a Z

Which of the following elements could be seen as a challenge?

- A. Security
- B. Virtualization
- C. Disaster Recovery (DR)
- D. Technical skills of existing staff

Answer: D

13. A university physics department issues a RFP for a large system for research purposes. The System z Sales Specialist has never met this group previously.

Which of the following describes the likely financial justification process?

- A. The department will conduct a study of all the operating systems available
- B. The department will compare distributed, clustered, and centralized implementations and decide based on TCA
- C. The department will compare communication sub systems, and LAN topologies between all vendors
- D. The department will purchase a system to meet performance needs at the best price and consider the total cost of ownership

Answer: B

14. A System z Sales professional has just begun discussions with a new prospective customer.

Which of the following information is the most important at this step?

- A. Decision date
- B. Enterprise architecture
- C. Business issue
- D. Project budget

Answer: C

15. A prospective manufacturing customer with an existing complex environment is requesting a proposal for a TSM data management solution. What should be the first step taken to validate the customer's project?

- A. Perform a TSM benchmark
- B. Verify funding
- C. Contact the IBM Software Sales Professional
- D. Survey customer's current environment

Answer: C
