

## **Just4Cert 1z0-030 Exams**

*Oracle oracle9i database:new features for administrators*

**Practice Exam:** 1z0-030

**Exam Number/Code:** 1z0-030

**Exam Name:** oracle9i database:new features for administrators

**Questions and Answers:** 120 Q&As

### **Exam Description**

**Order :** [1z0-030 Exam](#)

1. Just4Cert offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 1z0-030 Exam.

Just4Cert **Practice Exams** for 1z0-030 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **9i DBA** exam and get your **9i DBA Certification**.

We guarantee your success in the first attempt. If you do not pass the **9i DBA** "1z0-030" (oracle9i database:new features for administrators) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Just4Cert 9i DBA 1z0-030 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of 9i DBA 1z0-030 exam provides everything which you need to pass your exam. The 9i DBA Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "1z0-030 exam" questions from different websites or books, but logic is the key. Our Product will help you not only pass in the first oracle9i database:new features for administrators( 9i DBA ) exam try, but also save your valuable time.

Comprehensive questions with complete details about 1z0-030 exam.

1z0-030 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real 9i DBA exam. 1z0-030 exam questions updated on regular basis.

Like actual 9i DBA Certification exams, 1z0-030 exam preparation is in multiple-choice questions (MCQs). Tested by many real 9i DBA exams before publishing.

Try free 9i DBA exam demo before you decide to buy it in <http://www.Just4Cert.com>

High quality and Valued for the 1z0-030 Exam: 100% Guarantee to Pass Your 1z0-030 exam and get your 9i DBA Certification. Come to <http://www.Just4Cert.com> The easiest and quickest way to get your 9i DBA Certification.

Just4Cert professional provides 9i DBA 1z0-030 the newest Q&A, completely covers 1z0-030 test original topic. With our completed 9i DBA resources, you will minimize your 9i DBA cost and be ready to pass your 1z0-030 test on You First Try, 100% Money Back Guarantee included!

## 1z0-030 Exam Study Guide

1z0-030 exam is regarded as one of the most favourite [9i DBA Certifications](#). Many IT professionals prefer to add 1z0-030 exam among their credentials. Just4Cert not only caters you all the information regarding the 1z0-030 exam but also provides you the excellent 1z0-030 study guide which makes the certification exam easy for you.

### Just4Cert Engine Features

Comprehensive questions and answers about 1z0-030 exam

1z0-030 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

1z0-030 exam questions updated on regular basis

Same type as the certification exams, 1z0-030 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 1z0-030 exam demo before you decide to buy it in Just4Cert.com

### Just4Cert Help You Pass Any IT Exam

[Just4Cert.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Oracle 1Z0-030

Title : Oracle9i DataBase:New Features for Administrators

1. The EMPLOYEES table is stored in the SAMPLE tablespace. The corresponding IPK\_EMP index for the EMPLOYEES table's primary key is stored in the INDX tablespace. Out of 12 partitions, only partition P1 of the SALES table is stored in the SAMPLE tablespace. Which objects will be exported by this command? exp system/manager tablespaces=SAMPLE

- A. only the EMPLOYEES table
- B. only the EMPLOYEES table and its corresponding primary key index
- C. the EMPLOYEES table and partition P1
- D. the EMPLOYEES table, IPK\_EMP index, and the SALES table

Answer: D

2. What is the benefit of the Cached Execution Plan feature?

- A. SQL statement performance is improved.
- B. The SQL statement no longer needs to be cached in the library cache.
- C. Improved diagnosability, as the execution plan of a cached SQL statement in memory is preserved.
- D. The execution plan is available for diagnosis after the SQL statement is aged out of the library cache.

Answer: C

3. You can use Oracle Flashback to look at past activity in your database. What are two other characteristics of Oracle Flashback? (Choose two.)

- A. Oracle Flashback uses undo information to construct consistent data.
- B. You can use a PL/SQL cursor opened while using an Oracle Flashback image to perform DML once you deactivate Oracle Flashback in your session.
- C. You can only use an Oracle Flashback view of the data if the required records are still in the online redo log files.
- D. Oracle Flashback lists the DML that was executed during the period you identify when initiating your session.

Answer: AB

4. Which two are true regarding automatic space management segments? (Choose two.)

- A. You can create an automatic space management segment in a dictionary-managed tablespace.
- B. You can create an automatic space management segment only in a locally managed tablespace.
- C. You can successfully invoke the DBMS\_SPACE.FREE\_BLOCKS procedure on an automatic space management segment.
- D. You CANNOT successfully invoke the DBMS\_SPACE.FREE\_BLOCKS procedure on an automatic space management segment.

Answer: BD

5. Your database has tablespaces with different block sizes. What must you do to back these up with RMAN?

- A. You need to issue a separate RMAN BACKUP command to group tablespaces with the same block size.
- B. You need to use RMAN BACKUP BLOCKSIZE=nK to select tablespaces that are not the same size as the standard block size.
- C. You can simply issue the RMAN BACKUP command, because a backup set can contain tablespaces of different block sizes.
- D. You must allow for the fact that RMAN will generate several backupsets, one for each block size, when you issue the RMAN BACKUP command .

Answer: D

6. What is true regarding a transaction executed in Automatic Undo Management mode?

- A. It is possible for the transaction to span different undo segments.
- B. It is possible for the transaction to reuse inactive extents from another undo segment.
- C. It is possible for the transaction to use inactive extents from another undo tablespace.
- D. It is possible for the transaction to extend the undo tablespace, even if defined with AUTOEXTENSIBLE set to FALSE.

Answer: B

7. Consider this syntax: MERGE INTO t1 USING t2 ON (join predicate)?. What does the MERGE syntax do?

- A. It performs a merge join of the row from T2 only if it doesn't exist in the T1 table.
- B. It creates a natural join of tables T1 and T2 for all columns that have the same name.
- C. It creates a Cartesian product of table T1 and table T2 for all columns that have the same name.
- D. For each row from T2, it updates the row if it exists within table T1, otherwise it inserts the row into T1.

Answer: D

8. What is the meaning of using "character semantics" to create a table?

- A. You use only use CHAR data types.
- B. All columns are a single character wide.
- C. You use single letter names of all columns.
- D. You specify the width of a column in characters, not in bytes.
- E. You use only character type data types (CHAR, NCHAR, VARCHAR2, NVARCHAR2, CLOB, NCLOB).

Answer: D

9. What is true about version-enabled tables?

- A. The unit of versioning is the schema.
- B. It is possible to version enable a table pertaining to SYS.
- C. There are as many segments as versions for the same base table.
- D. It is possible to create workspaces if there is no version-enabled table in the database.

Answer: D

10. You can control instance recovery performance by setting parameters to define targets for \_\_\_\_\_.

- A. the size of the redo buffer in the SGA
- B. the instance that will perform recovery in a Real Application Clusters database
- C. the number of blocks to be read during instance recovery, or the time needed to complete instance recovery
- D. the number of passes through the redo logs made by the recovery process to identify blocks needing recovery

Answer: C

11. Which three resource plan parameters are used to enable Automatic Consumer Group Switching to estimate job execution times automatically, and to perform a switch to a low priority consumer group before they are initiated?

(Choose three.)

- A. SWITCH\_TIME
- B. SWITCH\_GROUP
- C. MAX\_SESS\_POOL
- D. SWITCH\_ESTIMATE

Answer: ABD

12. Examine the list of variables and their data types:

Name Data Type

TS, TS1 TIMESTAMP

TSZ TIMESTAMP WITH TIME ZONE

TLZ TIMESTAMP WITH LOCAL TIME ZONE

IYM INTERVAL YEAR TO MONTH

IDS, IDS1 INTERVAL YEAR To SECOND

Which three expressions using the new date and time data types are valid? (Choose three.)

- A. IDS \* 2
- B. TS + IYM
- C. TS - TS1
- D. IDS - TS
- E. IDS + IYM

Answer: ABC

13. Which two statements are true regarding the use of UTF-16 encoding? (Choose two.)

- A. enables easier loading of multinational data
- B. uses a fixed-width multibyte encoding sequence
- C. Asian characters are represented in three characters
- D. uses a variable-width multibyte encoding sequence
- E. European characters are represented in one or two bytes

Answer: AB

14. What statement is true about taking a database default temporary tablespace offline?

- A. You cannot take a default temporary tablespace offline.
- B. The database must be quiesced before you perform this action.
- C. You must ensure that all users are assigned to an alternative temporary tablespace first.
- D. You must first ensure that the default temporary tablespace has the permanent tablespace characteristic.

Answer: A

15. In what way are the two initialization parameters PGA\_AGGREGATE\_TARGET and WORKAREA\_SIZE\_POLICY related to each other?

- A. The default value for PGA\_AGGREGATE\_TARGET depends on the setting of WORKAREA\_SIZE\_POLICY.
- B. You must provide a nondefault value for PGA\_AGGREGATE\_TARGET before setting WORKAREA\_SIZE\_POLICY to the value AUTO.
- C. The value of PGA\_AGGREGATE\_TARGET can only be changed dynamically (that is, when the instance is open) if the value of WORKAREA\_SIZE\_POLICY is set to AUTO.
- D. You must provide a non-default value for PGA\_AGGREGATE\_TARGET before setting WORKAREA\_SIZE\_POLICY to the value MANUAL.

Answer: B

16. What does the Metadata Application Programming Interface (API) allow you to do?

- A. repair damaged data dictionary entries
- B. delete data dictionary information about database objects you no longer need
- C. extract data definition commands from the data dictionary in a variety of formats

D. prepare pseudocode modules for conversion to Java or PL/SQL programs with a Metadata code generator

Answer: C

17. Which statement correctly describes the function of the Oracle9 i Cache Fusion feature?

A. It provides each session with its own view of the database at a different point in the past.

B. It enables you to execute scalable applications on a clustered database without having to partition the users or the database tables.

C. It lets you dynamically reassign memory in your database buffer cache to different block buffer sizes.

D. It allows you to add new sites to multimaster replication environment without quiescing the master definition site.

Answer: B

18. A bitmap join index is defined as \_\_\_\_\_.

A. an index used to join two bitmap indexes on a table

B. a bitmap index created for the join of two or more tables

C. a bitmap index created on the join of two or more indexes

D. a bitmap index created on the join of two or more indexed-organized tables

Answer: B

19. Which four are true regarding the Workspace Manager in Oracle9 i ? (Choose four.)

A. automatically versions all tables

B. automatically installed with Oracle9 i

C. merges changes with parent rows or discards changes

D. provides mechanism to identify and resolve conflicts

E. allows for version enabling tables by use of a packaged procedure

Answer: BCDE

20. Online index rebuild functionality has been extended to include which four index structures? (Choose four.)

A. bitmap indexes

B. reverse key indexes

C. function-based indexes

D. key-compressed indexes on regular tables

E. key-compressed indexes on IOT (including secondary indexes)

Answer: BCDE
