Oracle oracle9i database:fundamentals i

Practice Exam: 1z0-031

Exam Number/Code: 1z0-031

Exam Name: oracle9i database:fundamentals i

Questions and Answers: 169 Q&As

Exam Description

Order : [1z0-031 Exam](#)

1. Just4Cert offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 1z0-031 Exam.

Just4Cert **Practice Exams** for 1z0-031 are written to the highest standards of technical accuracy, provided by our certified subject matter experts and published authors for development.

3. 100% Guarantee to Pass Your **9i DBA** exam and get your **9i DBA Certification**.

We guarantee your success in the first attempt. If you do not pass the **9i DBA** "1z0-031" (oracle9i database:fundamentals i) on your first attempt, send us the official result. We will give you a FULLY REFUND of your purchasing fee and send you another same value product for free.

4. Just4Cert 9i DBA 1z0-031 Exam Downloadable.

Our PDF or Testing Engine Preparation Material of 9i DBA 1z0-031 exam provides everything which you need to pass your exam. The 9i DBA Certification details are researched and produced by our Professional Certification Experts who are constantly using industry experience to produce precise, and logical. You may get "1z0-031 exam" question: from different websites or books, but logic is the key. Our Product will help you not only pass in the first oracle9i database:fundamentals i (9i DBA) exam try, but also save your valuable time.

Comprehensive questions with complete details about 1z0-031 exam.

1z0-031 exam questions accompanied by exhibits. Verified Answers Researched by Industry Experts and almost 100% correct.

Drag and Drop questions as experienced in the Real 9i DBA exam. 1z0-031 exam questions updated on regular basis.

Like actual 9i DBA Certification exams, 1z0-031 exam preparation is in multiple-choice questions (MCQs). Tested by many real 9i DBA exams before publishing.

Try free 9i DBA exam demo before you decide to buy it in <http://www.Just4Cert.com>

High quality and Valued for the 1z0-031 Exam: 100% Guarantee to Pass Your 1z0-031 exam and get your 9i DBA Certification. Come to <http://www.Just4Cert.com> The easiest and quickest way to get your 9i DBA Certification.

Just4Cert professional provides 9i DBA 1z0-031 the newest Q&A, completely covers 1z0-031 test original topic. With our completed 9i DBA resources, you will minimize your 9i DBA cost and be ready to pass your 1z0-031 test on You First Try, 100% Money Back Guarantee included!

1z0-031 Exam Study Guide

1z0-031 exam is regarded as one of the most favourite [9i DBA Certifications](#). Many IT professionals prefer to add 1z0-031 exam among their credentials. Just4Cert not only caters you all the information regarding the 1z0-031 exam but also provides you the excellent 1z0-031 study guide which makes the certification exam easy for you.

Just4Cert Engine Features

Comprehensive questions and answers about 1z0-031 exam

1z0-031 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

1z0-031 exam questions updated on regular basis

Same type as the certification exams, 1z0-031 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 1z0-031 exam demo before you decide to buy it in Just4Cert.com

Just4Cert Help You Pass Any IT Exam

[Just4Cert.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Oracle 1Z0-031

Title : Oracle 9i Database: Fundamentals I

1. In which two scenarios does a checkpoint occur? (Choose two.)

- A. when a log switch occurs
- B. when a segment is dropped
- C. when a tablespace is dropped
- D. when a tablespace is taken offline in NORMAL mode

Answer: AD

2. Which statement regarding the KEEP buffer pool is true assuming that it is sized correctly?

- A. The buffer pool can be used for data blocks of standard size only.
- B. The buffer pool can be used for data blocks of both standard and nonstandard sizes.
- C. The buffer pool eliminates data blocks from memory when they are no longer needed.
- D. The buffer pool holds data blocks from schema objects that are not assigned to any buffer pool.

Answer: A

3. Which two statements are true for a bitmap index? (Choose two.)

- A. It is recommended for the columns that have unique values.
- B. It stores a string of bits that represent the key column values.
- C. It can be converted to a B-Tree index by using the ALTER INDEX command.
- D. The updating to the key column locks the whole bitmap segment that contains the bit for the key value to be updated.

Answer: BD

4. A user executes a query on a table. Which process is responsible for reading the user's data stored in the table from the data files into the database buffer cache?

- A. user process
- B. server process
- C. checkpoint (CKPT)

- D.system monitor (SMON)
- E.database writer (DBWn)
- F.process monitor (PMON)

Answer: B

5. You want the Oracle server to force all the users of the administration department to change their passwords at regular intervals. What would you use to implement this?

- A.role
- B.profile
- C.system privilege
- D.database trigger
- E.Database Resource Manager

Answer: B

6. Your database is configured with 10 MB of database buffer cache. You want to reduce this size. You executed the following command:

Why is the value set to 4194304 and not to 2516582?

- A.4194304 is the granule size.
- B.4194304 is the standard block size.
- C.4194304 is the largest nonstandard block size defined in the database.
- D.4194304 is the total size of data already available in the database buffer cache.
- E.4194304 is the default value and it is always one-third of the total System Global Area (SGA) size.

Answer: A

7. Identify three components of an Oracle instance for which you can change the size dynamically. (Choose three.)

- A.Java Pool
- B.Large Pool
- C.Shared Pool
- D.Redo Log Buffer
- E.Database Buffer Cache

Answer: BCE

8. Which of the following files defines the characteristics of an Oracle instance?

- A.data file
- B.control file
- C.archived redo log files
- D.parameter file
- E.online redo log file

Answer: D

9. Which two statements regarding the database writer (DBWn) background process are true? (Choose two.)

- A.It is an optional background process.
- B.It writes dirty buffers to the data files whenever a checkpoint occurs.
- C.It writes dirty buffers to the data files whenever a transaction commits.
- D.It writes dirty buffers to the data files before the log writer (LGWR) writes.
- E.It is possible to have more than one database writer in an Oracle instance.

Answer: BE

10. Consider the following phases involved in the processing of a SQL statement:

Arrange the phases involved in processing a data manipulation language (DML) statement in the correct sequence.

- A.Execute, Bind, and Fetch
- B.Parse, Bind, and Execute
- C.Parse, Execute, Bind, and Fetch
- D.Execute, Bind, Parse, and Fetch

Answer: B

11. View the Exhibit and identify the component labeled as a question mark.

- A.archiver (ARCn)
- B.checkpoint (CKPT)
- C.system monitor (SMON)
- D.process monitor (PMON)

Answer: B

12. You are working on an OLTP system where transactions are being performed. In which two situations will the log writer (LGWR) write redo entries to the online redo log files? (Choose two.)

- A.every three seconds
- B.when a transaction commits
- C.when the redo log buffer is one-fourth full
- D.after database writer (DBWn) writes dirty buffers to the data files
- E.when there is more than 1 KB of changes recorded in the redo log buffer

Answer: AB

13. Consider the following phases involved in the processing of a SQL statement:

Arrange the phases involved in processing a COMMIT statement in the correct sequence.

- A.Parse, Bind
- B.Execute, Fetch
- C.Parse, Execute
- D.Parse, Bind, and Execute
- E.Parse, Bind, Execute, and Fetch
- F.Execute, Bind, Parse, and Execute

Answer: C

14. You accepted the position of DBA with a new company. The company has a database that operates in a 24x7 environment. You need to know if the database has been started using a text initialization parameter (PFILE) or a server parameter file (SPFILE).

Which two options help you to determine this? (Choose two.)

- A.query V\$SPPARAMETER
- B.query the V\$INSTANCE view
- C.query the DATABASE_PROPERTIES view
- D.use the SHOW PARAMETER SPFILE command
- E.use the SHOW PARAMETER INSTANCE command

Answer: AD

15. While updating the rows in a table you realize that one of the rows violates a constraint on the table, thereby causing the update to fail. Which statement is true in this scenario?

- A.The undo data is moved to a temporary segment.
- B.The undo data is retained and marked as obsolete.
- C.The undo data is retained and reused when the update is executed again.
- D.The space used by undo data is freed up to be reused by another transaction.

Answer: D

16. View the Exhibit and examine Scott's session.

As a DBA, you executed the following command from another session:

Which statement is true regarding the effect of this command on the transaction in Scott's session?

- A.The command fails as a transaction is still open.
- B.No further write operations are allowed on the SALES tablespace.
- C.The transaction in Scott's session is rolled back and the tablespace becomes read only.
- D.After the existing transactions are committed or rolled back, the command completes and the tablespace is placed

in read-only mode.

Answer: D

17. You execute the following command to create a role, ROLE1;

Which statements are true for the role? (Choose all that apply.)

A.The role can contain only object privileges.

B.The role must be set as the default role for the users.

C.The USING clause creates the role as an application role.

D.The role can be enabled only by using the authorized PL/SQL procedure.

E.The role can be enabled only by the user, APPS, by using the SET ROLE command.

Answer: CD

18. You have only one control file, control01.ctl, in your database. You decide to multiplex the control file and perform the following steps:

After startup, you queried V\$CONTROLFILE and find that the multiplexing was not successful. What could be the reason for this?

A.You copied the control file after the instance was shut down.

B.You used an operating system command to copy the control file.

C.You did not issue the manual checkpoint before the instance was shut down.

D.You did not update the parameter file to add information about the new control file.

Answer: D

19. Because of poor response time on queries, you are asked to allocate more space to the component that holds SQL execution plans. To which component would you allocate more space?

A.Java Pool

B.Large Pool

C.Shared Pool

D.Row Cache

Answer: C

20. You installed the Oracle software and want to create a database manually as per the following plan:

Which files do you need to create before creating the database?

A.data files

B.redo log files

C.archived log file

D.password file

E.parameter file

F.response file

Answer: E
