

## 4A0-107 Alcatel Lucent

### Alcatel Lucent Alcatel-Lucent Quality of Service

**Practice Exam:** 4A0-107 Exams

**Exam Number/Code:** 4A0-107

**Exam Name:** Alcatel-Lucent Quality of Service

**Questions and Answers:** 56 Q&As

( [Alcatel Lucent](#) )

Exam : [4A0-107](#)

"Alcatel-Lucent Quality of Service", also known as 4A0-107 exam, is a Alcatel Lucent certification. With the complete collection of questions and answers, TestInside has assembled to take you through 56 Q&As to your 4A0-107 Exam preparation. In the 4A0-107 exam resources, you will cover every field and category in Alcatel Lucent Certification helping to ready you for your successful Alcatel Lucent Certification.

Quality and Value for the 4A0-107 Exam TestInside Practice Exams for Alcatel Lucent **Alcatel Lucent** Certification 4A0-107 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

#### **TestInside provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 4A0-107 Exam.

4A0-107 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Alcatel Lucent product experts, included the current newest 4A0-107 examination questions.

3. 100% Guarantee to Pass Your Alcatel Lucent exam and get your Alcatel Lucent Certification.

If you do not pass the Alcatel Lucent Certification 4A0-107 exam (Alcatel-Lucent Quality of Service) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

#### **use TestInside 4A0-107 Q&A ensure you pass the exam at your first try.**

TestInside professional provide Alcatel Lucent 4A0-107 the newest Q&A, completely covers 4A0-107 test original topic. With our complete Alcatel Lucent resources, you will minimize your Alcatel Lucent cost and be ready to pass your 4A0-107 tests on Your First Try, 100% Money Back Guarantee included!

[Alcatel Lucent 4A0-107](#) Test belongs to one of the Alcatel Lucent certified test, if needs to obtain the Alcatel Lucent certificate, you also need to participate in other related test, the details you may visit the [Alcatel Lucent](#) certified topic, in there, you will see all related Alcatel Lucent certified subject of examination.

#### **TestInside Testing Engine Features**

Comprehensive questions and answers about 4A0-107 exam

4A0-107 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

4A0-107 exam questions updated on regular basis

Same type as the certification exams, 4A0-107 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 4A0-107 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Alcatel-Lucent 4A0-107

Title : Alcatel-Lucent Quality of Service

1. The IOM is responsible for which of the tasks listed below? Choose 3 answers.

- A. local processing of critical control plane functions
- B. IPSec VPN hardware accelerated encryption
- C. queuing, scheduling, and buffer management
- D. IP/MPLS/MAC forwarding lookup
- E. Layer 2 / Layer 3 encapsulation

Answer: CDE

2. Which of the following QoS policies does not have a default policy?

- A. scheduler policies
- B. service ingress
- C. service egress
- D. network queue
- E. network
- F. slope

Answer: A

3. Which of the following are not categories of forwarding classes on the Alcatel-Lucent 7750 SR? Choose 3 answers.

- A. Real-time
- B. Assured
- C. Non-conforming
- D. High Priority
- E. Expedited

Answer: ACE

4. Which of the following are characteristics of DSCP. Choose 3 answers?

- A. Part of the layer 3 header
- B. A 6-bit field of which the first 3 bits indicate the IP Precedence bits
- C. Specifies 8 different priorities
- D. Specifies 3 precedence levels
- E. Part of the layer 2 header
- F. Specifies 64 different per hop behaviors

Answer: ABF

5. Which of the following are not considered a differentiator/classifier of customer traffic at layer 2 or 3 of the OSI model? Choose all that apply.

- A. DSCP
- B. 802.1p
- C. IP Precedence
- D. TCP/UDP Port numbers
- E. HTML version

Answer: DE

6. Which of the following is not one of the ingress matching criteria for a network policy? Choose all that apply.

- A. TCP port numbers
- B. LSP EXP
- C. DSCP
- D. Source and destination IP addresses
- E. Dot1P priority

Answer: AD

7. Which of the following statements are true regarding the DSCP bits? Choose 3 answers.

- A. The precedence level bits define 4 Assured Forwarding Classes
- B. The three least significant bits of the DSCP bits specify the drop probability
- C. The 8 bits of the TOS field are used for DSCP
- D. To convert DSCP to IP Precedence the three most significant bits are matched
- E. DSCP provides for 64 precedence levels with 3 drop probabilities

Answer: ABD

8. Which of the following statement is true with regards to Q-in-Q on the Alcatel-Lucent 7750 SR?

- A. Q-in-Q defines a mechanism for encapsulating queued DSCP traffic at the provider edge
- B. Q-in-Q is a new protocol that supercedes 802.1p priority-bit mapping in a QoS-aware network
- C. The use of either the inner or outer 802.1p bits in the 802.1q frames for QoS classification can be configured on the Alcatel-Lucent 7750 SR
- D. Q-in-Q is a protocol which re-encapsulates trunked p-bits in an outer label that is mapped into the EXP bits in an MPLS backbone
- E. none of the above

Answer: C

9. True or False: A proper end-to-end QoS solution is becoming more of an issue even as more bandwidth is being made available to today's bandwidth-intensive, interactive multimedia applications.

- A. True
- B. False

Answer: A

10. Which of the following are Trusted boundaries by default? Choose 2 answers.

- A. An IES SAP
- B. A VPLS SAP
- C. A network port
- D. A VPRN SAP
- E. An access port

Answer: CD

11. Which of the following are examples of metrics for QoS?

- A. delay, jitter, packet loss
- B. latency, FIFO, WRED
- C. signal degradation, attenuation, line loss
- D. SNR, radial CODEC inversion, latency
- E. Inverse Queue Depletion, delay, packet loss

Answer: A

12. Pick from the following list the 3 major components of the QoS features on the Alcatel-Lucent 7750 SR.

- A. virtual inflow classification
- B. real-time QoS shaping
- C. traffic classification
- D. 802.1q p-bit rate-limiting
